

## REMARKS

Applicant's Attorney has requested various minor corrections to the drawings. In particular, Applicant's Attorney has requested that the arrow for region 156 in Fig. 10a be shortened to extend to the upper surface of the semiconductor body as occurs with the arrow for region 156 in Fig. 10b. Applicant's Attorney has requested that the upper surface of the semiconductor body in Fig. 10c be labeled "156" in the same manner as in Fig. 10b. Applicant's Attorney has requested that arrow "128" in Fig. 10d be changed to arrow "178" as occurs in Fig. 10c.

Applicant's Attorney has requested that plus (+) and minus (-) signs be respectively added to the upper and lower ends of the  $V_{GB}$  arrow in each of Figs. 14 and 15 consistent with how the  $V_{GB}$  arrows are labeled in Figs. 12, 13, 16, and 17. Applicant's Attorney has requested that a missing arrowhead be added to the lead line for reference symbol 106 in Fig. 21.

Applicant's Attorney has requested that the missing portion of the numerical scale for the horizontal axis in Fig. 22 be added to the figure and that the missing slanted shading be added to region 108 that runs along the horizontal axis in Fig. 22.

Applicant's Attorney has requested that the missing label "282" be added to the small square near the center of Fig. 37 consistent with how the corresponding region is labeled "282" in Fig. 38. Finally, Applicant's Attorney has requested that the label for the region along the outer periphery of Fig. 37 be changed from "138" to "134" consistent with how that region is labeled "134" in Fig. 38.

Please telephone Attorney for Applicant(s) at 650-964-9767 if there are any questions.
